I. Student Achievement- Student Performance Data

The data identified in these charts is used as part of our school wide improvement process. They reflect the current progress of our students in reading as it relates to our school goal of having all students reading at or above grade level by third grade. The data collected helps teachers develop guided reading strategies in their classrooms. The charts reveal the percentage of students at each of the following levels: Beginning (red): students performing significantly below grade level and in need of intensive interventions, Progressing (Yellow): students slightly below grade level who would benefit from short term intervention, Proficient (Blue): students performing on grade level, and Advanced (Green): students performing above grade level. We see each student as an individual learner with specific needs, and data is collected at the classroom level and used to guide instruction. The data sources include Terra Nova III (Grades 3-8), Fountas and Pinnell (F &P) Benchmarking and Acuity(Grades 3-8). Parents receive the scores of their individual child(ren) as assessments are completed.
